

## Containerized Commercial Reverse Osmosis System

10ft Containerized Reverse Osmosis System 6,000 GPD

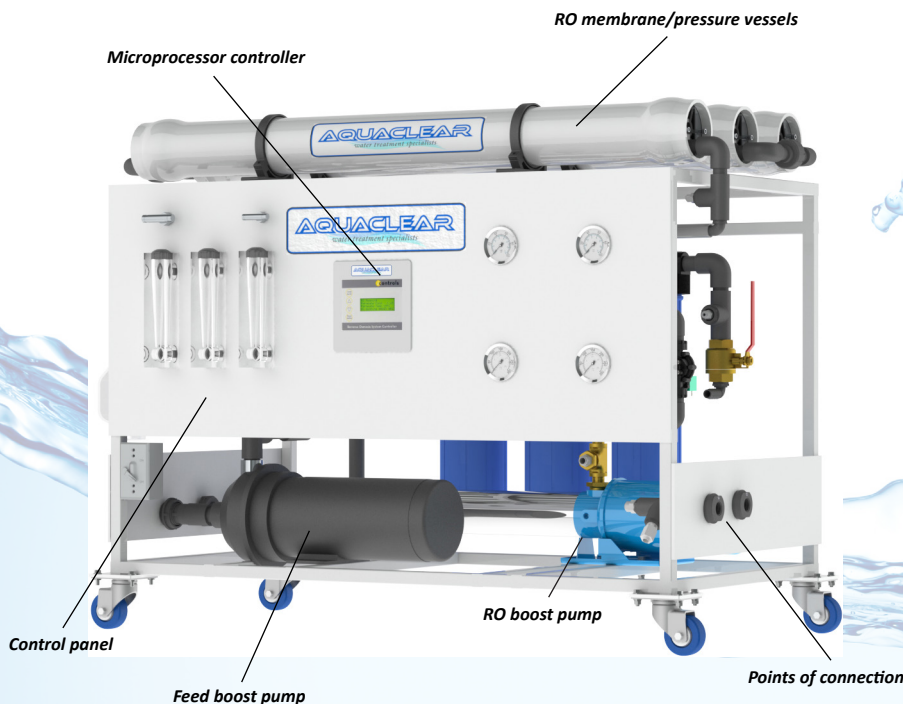

Aqua Clear Water Treatment Specialists manufacturers and engineers standard and custom water treatment shipping containers to accommodate many different water conditions. Like each water type, each water treatment container is unique and fully customizable. When working with any customer we listen closely to the needs and expectations, then implement this in the design process for ease of use and maintenance. Each container is a fully turn-key system.

### Features (standard)

- 10ft shipping container
- Easy access points of connections
- Interconnecting piping and wiring
